

JACOBSZOOM & ASSOCIATES, INC.

natural resource planning & management

Water Quality Team Member (Technician)

Full Time - Non-Exempt

Jacobszoon and Associates, Inc. is actively recruiting for an Environmental Technician for our Water Quality Team. This position is based in Ukiah, CA.

Description

The Environmental Technician will provide technical assistance regarding the planning or development of coordinated practices for soil erosion control, soil or water conservation, or sound land use. This position works under the direct supervision of Environmental Analysts, Scientists, or Technical Specialists, is expected to complete work to set timescales, and reports progress, issues, and other pertinent project information to supervisors.

Responsibilities

- Field assessments of private properties for compliance with applicable state and county regulations
- Field data collection and real time mapping
- Watercourse classification
- Documentation and/or report preparation for permits or licenses
- Map/GIS development

Knowledge, Skills, Abilities

- Operation of all-terrain vehicles (ATVs and 4WD vehicles)
- Map creation (Google Earth and ESRI ArcGIS)
- Mobile mapping (tablet computer, external GPS, mobile mapping software)
- Proficient in Microsoft Office Suite (Word, Excel, PowerPoint)
- Experience with Gmail and Google Calendar

Education and Experience

Requires a Bachelors of Science degree in restoration ecology, soils, rangeland, forestry or closely related field and six months of relevant professional experience.
